

Tema: Job hunting

Mera: To discuss different jobs.To improve listening skills..To improve speaking skills.To role play

1. Introduction. Greeting.

T: Good morning, dear students, dear guests. Glad to meet everybody here. Hope you are in a good mood. And to encourage you more I want to start with a chant.

Things are getting better

With every passing day

Every day in every way

We are getting better.

Who's the most enthusiastic?

We are !

Who's the smartest?

We are!

Who's the most creative?

We are!

Who never gives up? We do!

T: Great ! So look at me...look at each other's eyes. Smile. And let's start our hunting. Yes.. I'm not wrong. We'll have a kind of hunting today. We'll try to hunt a job. That's why I called our lesson "Job hunting." And you'll be able to:

- Discuss different jobs;
- Improve your listening skills;
- Improve your speaking skills;
- Role play.

2 .Introductory talk..

T: So now help me to make a spider map. What words or word combinations associate you "job hunting" with? (students' suggest, the teacher makes up a spider map) Suggested answers: advert, job interview, good salary, part-time job, CV...

3. Warm up.

T: Great. I guess your ideas here will help us today to make some steps in our hunting. Now listen and try to recollect some kinds of jobs you were dealing with at the previous lessons. So what jobs:

- Are normally done by women;
- Are well paid;
- Require a lot of training;
- Are very stressful;

- Have long holidays.

T: Thanks a lot.

4. Speaking brainstorming.

T: I understand, it's not so easy today to decide what proper job to have. We are living in a fast-moving world and there are over 20000 jobs in the world. It's not a secret some of them are popular, some are in demand and some are really undesirable. So, I'd like you to look at the list of some jobs and think about which of them are so. You can see stickers of different colours on your desks. You should stick yellow to the undesirable jobs, green to those that are popular and red to those that are of great demand. (students stick coloured stickers, then we analyse the general opinion of the group)

5. Main part of the lesson

T: Ok. Great job. Now a question. How do you think is it possible to be a good vet not loving animals? Or to be a good computer programmer not knowing programming?

(answers suggested)

I agree. To do a job well we should have certain profession qualities. I suggest you now to come to the blackboard where you see balloons of different colours. Choose your favourite one, where you will find a job you have to name some qualities needed to do it well. (students go, prick the balloon and think about proper qualities)

5. Watching a video.

T: Now I suggest you to watch a video. You know there are some unusual jobs that demand special qualities. Watch it and do some tasks. Some of you have to tell what features it needs. Others have to answer the questions. (watch, do the tasks and discuss)

Handouts # 1

6. SWOT analyses.

T: It's really important to take into consideration your own interests , abilities and skills. Have you ever heard about SWOT analyses? (students answers) Yes , right it's initialism for S – strengths, W- weaknesses, O- opportunities, T- threats. I'd like you to think a bit and give your own SWOT analyses.

(students think and express their opinions)

7. Group work.

T: Well done guys. I see you are self critical and can identify your abilities. So. Imagine you are going to find a job...part time or full time...what would the places be? (students' answers – websites, adverts in paper or magazine...)

Yes. Agree. I suggest you now to come here. All of you. Number off odds and evens. Odds make a step forward and take this place and evens take this place.

I give you a pack of jumbled word combinations and a poster with the headline. You should make up the advert having found the appropriate word combinations and sentences. Then present you advert.

(students work)

9. Summing up

T: Ok dears. You've worked a lot today. Now I suggest you to come back to our word spider. Did you make proper steps in job hunting? Which ones? Was it easy or hard? (students' answers)

I MUST SAY YOU WERE REALLY ENTHUSIASTIC, CREATIVE AND HARD-WORKING. You get only excellent marks. I hope each of you will become a respected person who will find the place under the sun and make his life the happiest on the planet. Good luck !
